

Your Skin Color Shouldn't Dictate Your Future

ADVERTISING AGENCY: PUBLIC CONSEIL, PARIS, FRANCE

Input Space: White and colored newborn babies lying on cribs in a hospital.

Generic Space: Racism and misconceptions.

Blended Space: The advertisement unpacks the false beliefs that skin color cannot be an indicator of one's future.

Title: Trump is an Astronaut

Group: Aynura & Lila

Input Space: Trump's face facing right; he's wearing an astronaut uniform while standing on the Moon, and the Earth is behind him.

Generic space: Authority and Politics

Blended Space: Many people think Trump is someone who always behaves himself above everyone else. That's why, we blended an astronaut image with his face to sort of characterize this idea.
